

League City Animal Advisory Committee

Regular Meeting

November 21st, 2019

In Attendance:

Kim Schoolcraft

Greg Gripon

Carl Wankowicz

Donna Jones

Betsy Robinson DVM

Absent:

Capt. A. Hera

A discussion about live intake and outcome of animals was held, it was determined that the decrease in live release rates can be attributed to neo natal kittens that did not survive. We discussed better training for volunteers and fosters and spay/neuter as possible solutions.

Kim presented an update on the anticipated move in date to the new facility and expressed concern about parking space for the public. The fundraiser/sneak peek for the public will be held this coming Friday.

An update on hiring of the new positions approved by council was presented by Kim, and she expects all positions to be filled before move in date.

A tour of the new facility was conducted and the meeting adjourned.
